Dear Lilienthal Families,

As many of you know, the Scott Campus is going to be getting some significant updates in the near future. The updates begin this coming summer with a 10 classroom building and a gym for our Middle School. The plans include a wonderful science lab, fitness center, innovation lab and gym for our sports teams. The plans for this building are coming along nicely and we're in the process of picking out furniture! If you'd like to see more about the plans for this project, take a look at the attached plans! This project starts in the summer of 2018 and should (fingers crossed) end in the summer of 2019.

Additionally, we are beginning the planning stages of an update on our current Scott Campus building. During this bond measure project, we'll be renovating classrooms to give them more 21st Century capabilities. The construction for that project will begin the summer of 2019 and will run for about one year. During this project, many of our classrooms will get updated whiteboards, technology, infrastructure, and there's a possibility to make the classrooms larger due to the old coat closets that each classroom has.

After the construction is done, Lilienthal will have one of the nicest facilities in the district!

We're really excited for these two projects and know that the outcomes will be wonderful for our community. In the end, we will have a facility that supports 21st Century learning and gives us the capability to host community events in a different way!

*With high hopes for the future,
Tyler Graff
Principal, Claire Lilienthal K-8*
